## Zine Instruction Video and Process!

The zine was designed to document and chronicle my target shooting as an amateur marksman. Allowing me to fold up my shots into a cute little book I can flick through at the end of the day :)

When you print yours feel free to enjoy the abstract work on its own or get creative with how you can make marks from a distance too. Here are just a couple ideas:

Throw darts, throw a pen, pencil or marker.

Test your accuracy by tossing a paintbrush rich with paint.

A nurf gun with ink loaded on the tip of the bullet.

Or any other household item you can think of, I cant wait to see what you make!

Here is the link to the instruction video. Your browser just needs to be logged into your rmit google account to view it :)
